WORK EXPERIENCE

Product Developer

Kyle Solution Pvt Ltd Calicut Kerala

Jan 2025 - Present

- Developed Windows .exe POS app for local retail transaction and inventory management.
- Built Android mobile app using React Native for seamless local operations.
- Enabled local IP-based connectivity between Windows system and mobile app.
- Implemented real-time data syncing for consistent records across both platforms.
- Integrated secure payment processing with bearer token access for local use.

Freelance Web Development

- Designed and developed a full-featured POS mobile application tailored for mobile retail shops and supermarkets.
- Implemented offline-first architecture using Isar local database for seamless inventory and transaction management.
- Integrated product barcode scanning and category-based product filtering for fast billing.
- Created responsive, clean UI using bootstrap and css.

Sep 2024 - Dec 2024

DevelopmentIntern Trainee

Guvi Geeks Private Limited , Chennai

Jul 2024 - Sep 2024

- **Wrote and optimized code** to develop 5 RESTful APIs, increasing system efficiency by 30%.
- Developed components for the backend system, ensuring seamless interaction with the front-end.
- Enhanced the **functionality** of user authentication systems by implementing features like Login, OTP, and Password Reset.
- Worked according to **technical specs**, ensuring that all developed features aligned with system architecture.

PROJECTS

Ophthalmic Disease Predictor

- **Designed** a deep ensemble learning model that improved prediction accuracy by 25% for ophthalmic diseases using medical images.
- **Applied** Bootstrap Aggregating (Bagging) techniques, enhancing model robustness and consistency across datasets.

EdTech for Dialect and Accent Training

- Developed an AI-based app for Tamil dialect training, achieving less than 13% Word Error Rate (WER).
- Evaluated the app's performance on different dialects and focused on user- friendly design to make it accessible to everyone.

Next-Generation Student Management

- Implemented CRUD operations for managing over 1,000 student records, improving scalability.
- Led 5 knowledge-sharing sessions, elevating team expertise in MERN stack technologies.
- Improved overall system scalability and responsiveness, contributing to the success of Zhahi Tech Training's student management system.

CERTIFICATION

- FullStack Development in GUVI,
- MERN Stack Development in Zhahi Tech Training
- Mastering Figma at GUVI.
- JavaScript at GUVI

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Python, PHP, SQL, .NET MAUI
- **Web Development:** HTML5, CSS3, React.js, Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **Frontend Frameworks:** Flutter, Bootstrap, Tailwind CSS
- **Version Control:** Git, GitHub
- **Tools:** Figma, JWT, Redis, Nodemon

ACHIEVEMENTS

- **Rankedinthetop10%atthellTBombay FOSSEE MAPATHON (2023)** in a National Geospatial Mapping Event.
